# ILIJA ŽIVADINOVIĆ

## JUNIOR FRONTEND DEVELOPER

## ABOUT ME

Hello, I'm Ilija, I finished Belgrade Business School and obtained the title of professional engineer of information systems, with the desire for further training in the world of informatics I enrolled in master's studies at my school. I've always been attracted to building designs, with learning HTML5, CSS3, Bootstrap5, and JavaScript in my studies, and on my own, I found myself in it and decided to devote myself to it more deeply. I offer construction on projects to learn some new things and improve myself.
